

Hardhat Enterprise Update (v. 35.85):

JOB COST

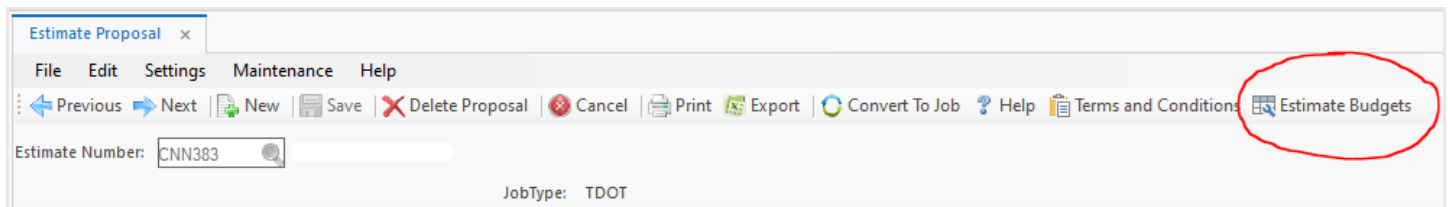

Job Status Report (665):

***This is a new program. Administrators will need to give users access.

- This new report shows various contract, completion and billing information for specific jobs.

Pay Estimate Proposal (295):

- A new **Estimate Budgets** button has been added to **Pay Estimate Proposal**. It was originally requested so that estimators can input budgets as they create proposals. This keeps users from having to wait until the job is set up during the Convert Proposal to Job process.

Misc. Improvements:

- When using **Tabbed View**, new forms now open as the **left-most** tab instead of the right-most.

Hardhat Legacy Update (v. 20250327)

PAYROLL

941:

- The 941 has been updated with the new 2025 form from the IRS.
